**Subject:** questions on Dimock PA water testing

Roy,

EPA has released its fourth set of water sample results from drinking water wells in Dimock, Pa. Is there an announcement on this that I can receive? And a URL to the posted test results? I believe that EPA has again found that the water meets federal standards, right? That is what Cabot Oil and Gas Corp. is saying, anyway. The company says these results were released today.

I also left you a voicemail message to ask about this. I hope you can help. I need to meet a deadline later this afternoon.

I write for BNA's Daily Environment Report.
